

# Guest House Review

## Issue 1 (2), September 2008

### Continuing Education Test

**Directions:** Once you have read the contents of *Guest House Review* (1, No.2, Sept 2008), please print a copy of this test and respond to the following 10 questions. Submit the completed test to the Guest House Institute at the address below, along with \$10. A passing grade of 70% is required. Your CEU certificate (1.5 hours, NAADAC-approved) will be mailed to you within a few weeks.

T F

1.   **True or False:** The Adverse Childhood Experiences (ACE) Study examines the health and social *effects* of adverse experiences throughout the lifespan.

T F

2.   **True or False:** Stressful or traumatic childhood experiences are the invisible engines underneath many of our major social problems in the U.S..

T F

3.   **True or False:** There appears to be no single mediating variable between adverse childhood experiences and multiple health and social risks.

T F

4.   **True or False:** According to Robert Grant, when a child gets consistent, loving feedback then the core of his or her self is strengthened.

T F

5.   **True or False:** Grant believes that trauma “wakes us up” from the sleep of our socially constructed “boxes.”

T F

6.   **True or False:** Many applicants or candidates for priestly ministry lie on the standard forms that request information on family history.

T F

7.   **True or False:** Personal histories of unresolved childhood abuse and trauma have little relevance to clergy abuse.

T F

8.   **True or False:** Rev. Richard Chiola believes that a significant number of religious women and men have been sexually abused as minors.

T F

9.   **True or False:** A single abusive event may be traumatic for one individual but not for another.

T F

10.   **True or False:** Dr. George Vaillant believes that mammals are “hard-wired” for love.
